Policy on Indirect Costs for Sponsored Activities

Applies to: all sponsored activities

1. Scope

This policy applies to all funding that WW Analysis Limited provides to universities, research institutes and other organisations for research, workshops, conferences and related activities ("sponsored activities"), whether the funding takes the form of a grant, a sponsorship or a subaward.

2. Indirect costs

WW Analysis Limited does not pay indirect costs on sponsored activities. **The indirect cost rate for all sponsored activities is 0%.** This includes overhead, facilities and administration (F&A) charges, institutional levies and any other charge calculated as a percentage of the award. This policy formalises the practice WW Analysis Limited has followed since 1 January 2024.

3. Eligible direct costs

Our funding covers the direct costs of the agreed activity, including speaker and participant honoraria, travel and accommodation, venue hire, catering, materials, and event administration, such as the time of staff who coordinate the activity. These costs are eligible when they are itemised in the agreed budget.

4. Agreements and exceptions

The 0% indirect cost rate applies to every sponsorship agreement that WW Analysis Limited enters into, and it is stated in the agreement. Any exception requires the prior written approval of WW Analysis Limited.

5. Contact

Questions about this policy may be addressed to ww.analysis.uk@gmail.com. This policy is published at wwanalysis.org/indirect-cost-policy.
